Property Description

Gilmar offers you this penthouse of 277 square metres in the heart of Triana, one of the most important commercial areas of the city. It is a neighbourhood with a lot of architectural character and has been considered of cultural interest as a historical site since 1990. This penthouse with 360° views occupies the entire floor of the building and is a unique opportunity as all the surrounding buildings are lower in height. Its state is to reform and we offer a series of infographics that can guide you with the possibilities of your project. The building does not have a garage although in the area there are different alternatives to rent or buy a parking space. In the same door there is a taxi rank and its communication on foot is unbeatable given that it leaves the portal in the same Paseo de Triana.
