Property Description

Carena presents a secluded residential complex comprising 52 two and three-bedroom residences featuring personalized terraces. The development includes a shared swimming pool and gardens, both in communal spaces and on the ground floor apartments.

Your new residence is equipped with a designated parking spot and a storage room, ideal for storing items like surfboards and less frequently used belongings. For added convenience, the development features intelligent mailboxes, facilitating the retrieval of your online orders at your convenience.

Carefully integrated pedestrian accesses are an integral part of the architectural design, enhancing the overall aesthetics. To ensure maximum security, Carena will implement a video camera system in the access area from the street.

This adaptability makes Carena an ideal choice for diverse preferences, whether you seek a vacation home, an investment opportunity, or a permanent residence.
